DELAWARE

These pages contain brief information on opportunities that could offer exciting possibilities for U.S. companies in a variety of industry sectors.

Further information on these partnership opportunities can be obtained by contacting Carla Stone at (302) 656-7905, or by email at cstone@wtcde.com.

August 2019 Leads

PALESTINE: Looking for High & Low Density Polyethylene – Recycled

A Palestinian company based in Hebron is interested in sourcing large quantities of recycled polyethylene for industrial usage for immediate purchase. They seek to import 2,000 tons monthly for the manufacture of plastics nylon bags. Specifically, they seek to make household trash bags by the roll.

The types of recycled polyethylene they are looking for are as follows:

1. High Density Polyethylene - HDPE F10750

HDPE F10750 is a high molecular High Density Polyethylene copolymer grade typically used for blown film applications.

2. High Density (HMW) Polyethylene – HDPE 2285

High molecular weight HDPE Bimodal film resin

3. Linear Low Density Polyethylene for Blown Film – 218 Series

Product Description: 218 series resins are Linear Low Density Polyethylene grades suitable for general purpose packaging. They are easy to process giving good tensile properties, impact strength and optical properties.

218 Series includes following grades:

- 218N: No Slip & No Antiblock
- 218W: 1500 ppm Slip & 3500 ppm Antiblock

Processing Conditions:

Typical processing conditions for 218 are:

- Melt temperature: 185 - 205°C
- Blow up ratio: 2 – 3

BRAZIL: Petrobras' Divestment Program – onshore, offshore, and downstream assets

National oil company Petrobras has announced additional teasers regarding its ongoing asset divestment program. Interested U.S. companies can view them at <https://www.investidorpetrobras.com.br/en/results-and-notice/teasers>. For more information, contact [Regina Cunha](#), U.S. Commercial Service Rio de Janeiro.

=====

BRAZIL: Open Oil Acreage Opportunities

The Brazilian National Energy Policy Council (CNPE) has authorized Brazil's Oil and Gas Regulator (ANP) to keep oil blocks not awarded in previous oil leasing rounds on permanent offer to interested oil companies. They represent a total of 846 areas or blocks, in thirteen different basins, with a total area of 285,400 km². In July 2018, ANP published the contract notice and model for concession licenses from the permanent offer. More details on the Open

Acreage opportunities can be seen at <http://rodadas.anp.gov.br/en/open-acreage>. For more information, contact [Regina Cunha](#), U.S. Commercial Service Rio de Janeiro.

=====

HEALTHCARE Lead: International firms that are actively looking to purchase U.S. medical devices and equipment. Qualified sale(s) leads are presented below:

CHINA: A large pharmaceutical distributor in China seeking innovative pharmaceutical anticancer and orphan drug products which are regarded as urgent need for clinical use.

Contact [your local specialist](#) for more information.
